Manya Chourasiya

BTech CSE Student | Building in Android & Web | Exploring Networks, Security | TEDx Volunteer
Ujjain, Madhya Pradesh, India

Summary

I'm a Computer Science student at Avantika University (BTech '28), passionate about building real-world tech — currently developing CareConnect, an Android healthcare app built with Kotlin and Jetpack Compose. My academic focus spans Computer Networks, Cryptography & Information Security, DBMS, and Design & Analysis of Algorithms — areas I enjoy both in theory and in practice. Beyond code, I've been part of the TEDxAvantika University team across two cycles — contributing to curation and logistics, which sharpened my skills in collaboration, attention to detail, and working under pressure. I'm actively looking for internship opportunities in software development, mobile dev, or tech roles where I can contribute meaningfully and keep learning.

Experience

Labmentix

Web Development Intern

June 2026 - Present (1 month)

Bengaluru

Working as a Web Development Intern at Labmentix.

- Gaining hands-on experience in web development in a professional team environment
- Working on real-world projects under mentorship
- Building practical skills alongside academic learning at Avantika University

TEDxAvantika University

Logistics Team Member

January 2026 - February 2026 (2 months)

Ujjain

- Coordinated on-ground logistics for a large-scale TEDx event, managing venue setup, scheduling, and attendee flow
- Secured merchandise sponsorship for the event, handling outreach and coordination with external partners

- Strengthened ability to operate under time pressure, problem-solve in real time, and collaborate across departments

TEDxAvantika University

Curation

January 2025 - March 2025 (3 months)

Ujjain

- Researched and evaluated potential speakers, ensuring their talks aligned with the event theme and TEDx guidelines
- Collaborated with a cross-functional team to shortlist and finalize the speaker lineup for the event
- Developed skills in critical thinking, content evaluation, and professional communication through the selection process

Education

Avantika University

Bachelor of Technology - BTech, Engineering · (August 2024 - February 2028)

St. Paul's Convent Sr. Sec. School, Ujjain

· (2010 - 2024)
